## INTERNATIONAL JOINT REAL WORK LECTURE PROGRAM (INTERNATIONAL KKNB)

### I. Background

The Joint Real Work Lecture (KKNB) International BKS PTN Barat is an intracurricular activity of Higher Education that combines the dharma of education, research, and community service in one activity. This program is intended so that students can develop *soft skills* and to mature personality in order to foster a sense of nationalism, as well as self-confidence in preparation for facing the realities of social life.

In order to improve the international atmosphere in regional level, BKS PTN Barat initiated the "International Joint KKN" activity which can provide an opportunity for PTN in the western region of Indonesia to jointly conduct Real Work Lecture activities. In the implementation of the first International KKNB activity, the Sumatra Institute of Technology was appointed as the host.

The "KKN Bersama Internasional" activity is a real work study activity involving students from PTN in the western region of Indonesia and foreign/international students. This activity is a forum for students to mature their knowledge, hone their leadership, work attitude, work team, and personality as future leaders of the nation while building networking between students, both from within the country and abroad (foreign students).

The theme of the 2025 International Joint KKN is "*Developing ecotourism villages for climate change mitigation*". Tourism is one of the potential sources of state income, so its sustainability needs to be maintained so that state income from the tourism sector remains optimal. In line with the theme, the location of the International Joint KKN is an area with high tourism potential in North Sumatra. The implementation of this International KKNB is expected to increase *soft skills* participating students and the internationalization of each PTN in the West Region.

## II. Goals and Objectives

a. The objectives of the 2025 International Joint KKN are:

1. Help accelerate and equalize development in the regions.
2. Provide an impressive interpretive experience for International KKNB students to increase sensitivity to the political, environmental, and social climate of the tourist destination.
3. Cultivate and improve students' empathy towards society by seeing, knowing, feeling, and experiencing the problems or difficulties faced by society.
4. Generate direct benefits for environmental conservation or preservation for sustainable tourism.
5. Provide students with experience in applying their knowledge to improve community welfare through sustainable tourism.

b. The targets of the 2025 International Joint KKN are:

### 1. Students

- Gain understanding and appreciation of the benefits of science, technology and art for the implementation of development, especially in the tourism sector.
- Deepen the understanding, appreciation, experience and mature the students participating in the International KKNB in solving problems faced at the International KKNB location in a pragmatic and scientific manner.
- Expanding networking with students from the western region of Indonesia and with students from abroad.
- Integrating diverse student skills and abilities in implementing development and construction programs.
- Increasing social awareness.
- Train students to be able to work together with individuals from various backgrounds, regions, countries, and cultural diversity.

## 2. Local Government

- Obtaining objective details of the problems faced by the community.
- Introducing tourism potential in the area.
- Get help with ideas and energy in solving local tourism development problems.
- Encourage potential and innovation among local community members in an effort to meet needs through the use of science and technology, especially in the field of tourism.
- Improving the economic welfare of people in villages.

## 3. College

- Expanding the university network.
- Improve the reputation of the college.
- Increasing partnerships to conduct research and community service.
- Producing graduates who understand community problems and are able to provide pragmatic solutions to problems.
- Get input in curriculum development in accordance with community dynamics.

# II. Organizer

The 2025 International KKNB activity was organized by the Sumatra Institute of Technology (ITERA) as the host.

Portrait of the Sumatra Institute of Technology (ITERA) as one of the state universities in Lampung Province, Indonesia.

## II. Implementation Mechanism

### 1. Participants

Participants of the 2025 International Joint KKN are active students registered at 39 state universities included in the West Region BKS PTN. Each PTN sends a maximum of 5 (five) students, while ITERA as the host sends 50 (twenty) students.

Furthermore, participants also come from universities abroad, as many as 20 (twenty) students are targeted to come from **South Korea, China, Malaysia, Japan, Germany, Vietnam, Thailand, Uzbekistan and Australia.**

Thus, it is targeted that 260 students will participate in the 2025 International KKNB.

The universities in Indonesia that will send participants to the 2025 International Joint KKN are:

- 1) Syiah Kuala University, Banda Aceh
- 2) University of North Sumatra, Medan
- 3) State University of Medan, Medan
- 4) University of Riau, Pekanbaru
- 5) Andalas University, Padang
- 6) Padang State University, Padang
- 7) University of Jambi, Jambi
- 8) Sriwijaya University, Palembang
- 9) University of Lampung, Bandar Lampung
- 10) University of Pontianak, Pontianak
- 11) University of Bengkulu, Bengkulu
- 12) Indonesian Institute of the Arts, Padang Panjang
- 13) University of Palangkaraya, Palangkaraya
- 14) Jakarta State University, Jakarta
- 15) Malikussaleh University, Lhokseumawe
- 16) Sultan Ageng Tirtayasa University, Serang

- 16) Sultan Ageng Tirtayasa University, Serang
- 17) State Islamic University, Jakarta
- 18) Bogor Agricultural Institute, Bogor
- 19) University of Indonesia, Jakarta
- 20) State Islamic University of Pekanbaru
- 21) King Ali Haji Maritime University, Tanjung Pinang
- 22) University of Bangka Belitung, Pangkal Pinang
- 23) Teuku Umar University, Meulaboh
- 24) Raden Fatah State Islamic University, Palembang
- 25) Ar-Raniry State Islamic University, Aceh
- 26) Sumatra Institute of Technology, Lampung
- 27) Indonesian Institute of Arts and Culture, Aceh
- 28) Samudra University, Aceh
- 29) Defense University, Bogor
- 30) Siliwangi University, Tasikmalaya

- 35) State Islamic Institute, Batusangkar
- 36) Indonesian University of Education, Bandung
- 37) Indonesian Institute of Arts and Culture, Bandung
- 38) Imam Bonjol State Islamic University, Padang
- 39) Sheikh Ali Hasan Ahmad Addarty University, Padangsidempuan

## 2. Grouping of Participants

Students who have been designated as participants in the 2025 International KKNB will be grouped according to the following provisions:

- Grouping of students in KKN locations (village/sub-district) is based on a multi-disciplinary concept. Grouping of students also considers the ratio of male and female students.
- Students are grouped per village/sub-district consisting of 10 students. Each group is led by a Group Leader determined by the Management.
- The location of KKN varies per sub-district, adjusted to the results of the agreement between the KKN Manager and the local District Government.
- KKN students are required to live/stay overnight at the location during the KKN.

## 2. Implementation Stages

The stages of implementing KKN are: A. Provision of International KKNB Participants in 2025

Briefing is a pre-implementation activity for the 2025 International KKNB, organized by the Sumatra Institute of Technology. This briefing activity aims to provide knowledge and information needed by students for the smooth implementation of the 2025 International KKNB in the field. Briefing will be carried out online through the ITERA LMS ([kelas.itera.ac.id](https://kelas.itera.ac.id)) which is asynchronous. The final result of the briefing is the International KKNB Activity Proposal for each group.

B. Departure of Participants to the 2025 International KKNB Location

The departure procedure for 2025 International KKNB participants to the location is:

1. All students participating in the 2025 International KKNB from the West BKS PTN were simultaneously released by the Chancellor.

2. Field Supervisors (DPL), the 2025 International KKNB management team, and Supervisors from each PTN in the West Region accompany students to the district and so on to the village where the KKN is located.
3. Students participating in the 2025 International KKNB who come from abroad will be released 1-2 weeks later.

#### C. Monitoring and Evaluation of International KKNB Participants in 2025

Monitoring and Evaluation of student implementation is carried out by the monitoring team from each PTN in the West Region, KKN Managers, LPPM staff, and DPL. Monitoring and Evaluation are carried out when students have undergone KKN activities for 2 (two) weeks at the KKN location. The Monitoring and Evaluation activities that will be carried out include:

1. Monitoring activities that have been, are being, and will be carried out in accordance with the activity schedule planned in the activity proposal.
2. Knowing and providing solutions to various obstacles experienced in implementing KKN.
3. Collect various inputs, both regarding ongoing activities and for all KKN activities.
4. Evaluate the KKN activities that have been carried out by each participant and group.
5. The field supervising lecturer will assess and check reports during the KKN activities.
6. Students present the results of the KKN program that has been, is being, and will be carried out to the Field Supervisor.

#### D. Withdrawal of International KKNB Participants in 2025 Procedures for

withdrawing KKN participants from the location include:

1. The Head of the Participant Group coordinates the students for the withdrawal.
2. Each Group Leader reports and coordinates with their respective Field Supervisor lecturers regarding the withdrawal of students from the KKN activity location.

- 3. KKN student participants who have completed the KKN activity program gather at the Regent's Office and are picked up by the Field Supervisor.
- 4. Students present the results of the KKN program activities in front of the Regent and local district government officials and will be accompanied by the DPL.
- 5. KKN students are required to help regulate the order and smoothness of the withdrawal process.

E. Timeline for 2025 International Joint KKN Activities

# Form of Joint International KKN Activities 2025

The 2025 International Joint KKN activities include but are not limited to the following areas:

## 1. Tourism

Participants are expected to increase awareness among local residents regarding the importance of the role of tourism in their lives and their readiness as tourism actors.

## 2. Education

Participants will convey the importance of education in life and the role of education in maintaining the sustainability of tourism in villages.

## 3. Agriculture

Participants will provide several innovations in increasing the quantity and quality of agricultural products. In addition, participants are also expected to be able to find factors that hinder agriculture in the village in order to support the tourism sector, such as agrotourism.

.

## 4. Health

Participants were given guidance on the importance of maintaining health and healthy living behavior as tourists.

## 5. Technology

Participants are expected to be able to increase the involvement of technology in tourism and agricultural management in the International KKNB location areas, especially information technology.

### 3.
